Top Skills

Business Analytics
Student Engagement
Large Language Models (LLM)

Certifications

Data Visualization and Dashboards with Excel and Cognos
Databases and SQL for Data Science with Python
Python for Data Science, AI & Development
Agile Virtual experience program

Ruchika Motwani

Data Analyst @ UT System | MSIS (Data Science) @ UT Austin |
Aspiring Data Scientist
Austin, Texas, United States

Summary

Data analyst with a background in computer engineering, focused on building systems that turn data into clear, actionable decisions. Currently pursuing a Master's in Information Studies at the University of Texas at Austin, with experience across analytics, automation, and data workflows. ► Built and improved internal data systems to streamline workflows and reduce manual effort ► Developed dashboards and reporting tools to support faster, more informed decision-making ► Worked with data pipelines, validation processes, and automation to improve efficiency and reliability Alongside my work in analytics, I'm increasingly interested in machine learning and AI-driven systems - especially how predictive models and intelligent automation can enhance decision-making at scale. I have explored this through research in air quality forecasting and continue to build my skills in applied machine learning. I'm currently seeking opportunities in data analytics, data science, and machine learning, where I can contribute while continuing to grow in this space.

Experience

The University of Texas System

Data Analyst

June 2025 - Present (1 year)

Austin, TX

- Built an automated Applicant Tracking System using Python, SQL, and Streamlit to streamline intern hiring across 14 UT institutions.
- Reduced manual follow-ups and improved screening efficiency for 250+ applications.
- Enhanced Power BI dashboards to track employee data and onboarding insights.

The University of Texas at Austin

Graduate Teaching Assistant

August 2024 - May 2026 (1 year 10 months)

Austin, TX

Women in Data Science (WiDS) Worldwide

Ambassador

February 2025 - January 2026 (1 year)

Austin, Texas, United States

Rotaract Club Of Parleshwar Gen-Z

Social Media Director

July 2023 - January 2025 (1 year 7 months)

Hari Om Sales

Data Science Intern

March 2024 - August 2024 (6 months)

Mumbai

- Analyzed 500K+ sales records to identify trends and improve inventory planning.
- Built predictive models to support demand forecasting and pricing decisions, increasing revenue by 10%.
- Segmented customers and developed ETL pipelines to enable targeted insights and reduce reporting time.

Magcons consulting engineers pvt ltd

Document control specialist

February 2023 - May 2023 (4 months)

Mumbai

- Optimized SQL queries, reducing execution time by 30% and improving data performance.
- Automated data validation for 150+ files, cutting manual effort by 25%.
- Built ETL pipelines and dashboards to improve data accessibility and support decision-making.

Education

School of Information - The University of Texas at Austin

Master's degree, Information Science/Studies · (August 2024 - May 2026)

University of Mumbai

Bachelor of Engineering - BE, Computer Engineering · (January 2021 - January 2024)
